# CUMULATIVE INDEX 1993

## Volume 23

| | |
|---|---|
| January | FELINE INFECTIOUS DISEASES, pages 1–233 |
| March | DIAGNOSTIC IMAGING, pages 235–480 |
| May | GASTROENTEROLOGY: THE 1990s, pages 481–689 |
| July | STIFLE SURGERY, pages 691–920 |
| September | LEGAL ISSUES AFFECTING VETERINARY PRACTICE, pages 921–1148 |
| November | EXOTIC PET MEDICINE I, pages 1149–1361 |

*Note:* Page numbers of issues and article titles are in **boldface** type.

Abandoned animals, and fee collection problems, 952–953
Abandonment, as malpractice, 1039
  in malpractice liability, 928–929
Abdomen, computed tomography of, errors in, 420
    interpretation of, 433–434
  distention of, in feline infectious peritonitis, 6
  in intermediate-sized nondomestic animals, abnormal, 1293–1294
    normal, 1292–1293
  in small mammals, abnormal, 1290
    normal, 1289–1290
Abscess(es), in pet lizards, 1241–1242
  incisional, with subtotal colectomy, 591
  subcutaneous, in snakes, 1197
Acariasis, in snakes, 1201–1202
Acceptance, of contract, 948
Acetaminophen, hepatic reactions to, 660
*N*-Acetylcysteine, for adverse hepatic drug reactions, 667
Acoustic shadow, definition of, 471
Activity, change in, in feline inflammatory bowel disease, 574
Adenocarcinoma, metastatic, and cranial cruciate ligament rupture, 806
Adrenal gland, hematoma of, computed tomography of, 433
  ultrasonographic appearance of, 367
    abnormal, 353
    normal, 350
Advanced medical directives, in estate planning, 1130
*Aelurostrongylus*, respiratory infection with, feline, 27, 30
Age Discrimination in Employment Act, and employment practices, 960–961
Aggression, in potbellied pigs, 1152
  toward humans, in pet lizards, 1246–1247
Aging, degenerative changes in, with cranial cruciate ligament rupture, 718
AIDS, in feline immunodeficiency virus infection, 179
AIDS-related complex, in feline immunodeficiency virus infection, 178
Air flow, environmental, for snakes, 1189
Alligators, anesthesia for, 1322
Alpha$_2$-adrenoceptor agonists, for exotic pet sedation, 1305
Amebiasis, feline, 41–42, 62
  in snakes, 1198–1199
Americans with Disabilities Act, and employment practices, 960–961
Amino acids, in enteral nutrition, for cats, 164
  in total parenteral nutrition, for cats, 165
Aminoglycosides, for neonatal sepsis in kittens, 98
Ammonia, fasting concentrations of, in congenital portosystemic shunt, 613
Amoxicillin, for feline gingivitis-stomatitis-pharyngitis complex, 142

Amoxicillin *(Continued)*
for ulcer therapy, 508
Amoxicillin-clavulanate, spectrum of activity of, 96
Amphibians, **1271–1286**
biologic data on, 1272–1273
clinical procedures in, 1276–1277
anesthesia, 1277
clinical pathology, 1276
physical examination, 1276
radiology, 1277
surgery, 1277
commonly kept, 1272
diseases in, 1277–1284
bacterial infections, 1278–1281
differential diagnosis of, 1279–1280
fungal infections, 1281–1283
neoplasia, 1284
nutritional, 1284–1285
parasites, 1283–1284
viral infections, 1283
foreign bodies in, 1284–1285
husbandry of, 1275–1276
immunology of, 1273
nutrition in, 1275
parasites of, 1282–1283
reproduction in, 1274–1275
surgery in, 1277
taxonomy of, 1271–1272
Ampicillin-sulbactam, spectrum of activity of, 96
Analgesia, for exotic pets, **1301–1327**. See also under *Exotic pets.*
Anatomic abnormalities, and infertility, in potbellied pigs, 1165
Anemia, in feline infectious peritonitis, 7
in newborn potbellied pigs, 1167
Anesthesia, for exotic pets, **1301–1327**. See also under *Exotic pets.*
for myelography, 310
for potbellied pigs, 1157–1159
inhalation, 1158–1159
injectable, 1158
in amphibians, 1277
postoperative, epidural, **703–716**. See also *Epidural anesthesia.*
Angiocardiography, radionuclide, first-pass, 388–390
Angiography, contrast agents for, 274–275
definition of, 471
Animal(s), cruelty to, statutory offense of, 1111
increased economic value of, and veterinary lawsuits, 1020
Animal and Plant Health Inspection Service, and veterinarian, **1053–1059**. See also *APHIS.*
Animal drugs, extralabel use of, 991–995
discretionary enforcement against veterinarians, 993–995
FDA policy vs law, 995
illegality of, 992
in food-producing animals, 993–994
in non-food-producing animals, 994
limitations of, 994
priorities for enforcement against, 994–995
Animal remains, disposal of, 1072
Animal Welfare Act, impact on veterinarians, **1109–1119**
provisions of, 1067
Animation, high-resolution, computer-generated, 465–466
Anode, definition of, 471
Anorexia, in snakes, 1204–1205
in tortoises/turtles, 1263
percutaneous endoscopic gastrostomy for, 531
Antacids, for ulcer therapy, 499
Anthrax, feline, 58
in veterinary practice, 1091–1092
Anti-ulcer therapy. See also *Ulcer therapy.*
Antibacterial drugs, for ulcer therapy, 507–508
Antibiotics, for canine parvovirus, 562
for eosinophilic granuloma complex, 149
for feline plasmacytic-lymphocytic gingivitis-stomatitis-pharyngitis, 146
for pet lizards, 1232
Anticholinergics, for potbellied pigs, 1157
for ulcer therapy, 505
Anticruelty laws, impact on veterinarians, **1109–1119**
Antiemetics, for canine parvovirus, 562
Antimicrobials, for amphibians, 1281
for feline hemobartonellosis, 86
for snakes, 1207–1209
in percutaneous endoscopic gastrostomy tube placement, 535
spectrum of activity of, 96
Antiulcer drugs, dosages for small animals, 507
Antiulcer therapy, **497–512**
Antral pyloric hypertrophy, acquired, in dog. See *Pyloric hypertrophy.*
APHIS, and accredited veterinarian, **1053–1059**
role of, 1054–1055
Appetite, change in, in feline inflammatory bowel disease, 574
Arthritis, immune-mediated, and cranial cruciate ligament rupture, 718
in baby potbellied pigs, 1171–1172
Arthropathies, cranial cruciate ligament rupture vs, 802–803
Arthroscopy, for cranial cruciate ligament rupture, 727
Arthrotomy, for cranial cruciate ligament rupture, 727–728

lateral, for cranial cruciate ligament stabilization, 738
Artifacts, in ultrasonography, 347–349
Artiodactyla, anesthesia for, 1317
Aspiration, with percutaneous endoscopic gastrostomy, 543
Aspirin, for feline dirofilariasis, 137
Assault and battery, employee legal action involving, 964
Assessment, standards of, and malpractice, 1038
Astrocytoma, computed tomography of, interpretation of, 425
magnetic resonance imaging of, 457
Atresia ani, in potbellied pigs, 1161
Attenuation, definition of, 471
Attractive nuisances, liability for, 988
Aurothioglucose, for feline plasmacytic-lymphocytic gingivitis-stomatitis-pharyngitis, 146
Auscultation, of snakes, 1192
AVMA Colloquium on Recognition and Alleviation of Animal Pain and Distress, report of, 1110
AVMA Committee on Animal Welfare, position of, 1110
AVMA Guide for Veterinary Medical Waste Management, 1072
AVMA Memorandum of Understanding for Humane Organizations and Veterinarians, 1110
Axial resolution, definition of, 471
Azaperone, for potbellied pigs, 1157
Azathioprine, for feline inflammatory bowel disease, 580, 582–583
for feline plasmacytic-lymphocytic gingivitis-stomatitis-pharyngitis, 147
AZT, for feline immunodeficiency virus, 185
Aztreonam, for neonatal sepsis in kittens, 96
spectrum of activity of, 96

B mode, definition of, 471
*Bacillus cereus* food poisoning, in veterinary practice, 1098
Bacteria, as feline uropathogens, 108–111
diagnosis of, 110–111
etiopathogenesis of, 108–110
treatment of, 111
zoonoses caused by, in veterinary practice, 1091–1098
Bacterial disease, and feline gingivitis-stomatitis-pharyngitis complex, 142
feline, 61, 66
enteric, 69
respiratory, 69–70
Bacterial infections, food-borne, in veterinary practice, 1098–1102
in amphibians, 1278–1281
in snakes, 1196–1198
Bacterial overgrowth, with exocrine pancreatic insufficiency, 603
*Bacteroides* species, and feline gingivitis-stomatitis-pharyngitis complex, 142
Bank accounts, in estate planning, 1124–1125
Bank trust officer, role in estate planning, 1123
Bankruptcies, increased number of, and veterinary lawsuits, 1021
Barbiturates, for exotic pet anesthesia, 1308
Beam hardening, definition of, 415, 471
Belt-loop gastropexy, for gastric dilatation volvulus, 524–526
Beneficiaries, designated, in estate planning, 1123–1126
Benzimidazoles, for gastrointestinal parasites, 672–675
spectrum of action of, 673
Benzodiazepines, for exotic pet sedation, 1304–1305
*Besnoitia*, feline infection with, 50–51
Beta-lactamase inhibitors, for neonatal sepsis in kittens, 95
Biceps femoris fascia, in cranial cruciate ligament stabilization, freeing of, 740
suturing of, 748
Bile acids, as therapeutic agents, 650–652
biological properties of, 626–627
conjugation of, 630–631
definition of, 626
degradation in alimentary canal, 628629
determination of, methods of, 641–644
enterohepatic circulation of, 631–635
circuits in, 633
factors affecting, 634–635
fasting vs postprandial, differences in, 648
hepatic toxicity of, 639–640
interactions with other organic anions, 640
low values of, as false-negative results, 648
metabolism of, inborn errors of, 649
pathologic effects of, 627
patterns of, with extrahepatic bile duct occlusion, 647
with intrahepatic cholestasis, 647
with shunting lesions, 647
physiology of, 626–631
serum, **625–657**
diagnostic application of, 644–647
effects of various disorders on, 636–639
fasting vs postprandial, 645–646

Bile acids *(Continued)*
historical background on, 625–626
synthesis of, 626, 628–629
control of, 627
variables influencing, 630
test procedures for, refinement of, 649–650
Bile salts, role in lipid digestion and absorption, 635–636
Biliary lipids, solubilization of, bile acids in, 627
Bismuth compounds, for canine parvovirus, 561
for ulcer therapy, 507–508
Bite wound diseases, feline, 57–67
Biting, in potbellied pigs, 1152
Bladder, cystography of, cystic calculi, 297
intravesicular hematomas, 298
transitional cell carcinoma, 303
ultrasonographic appearance of, abnormal, 352
normal, 350
Bladder wall mass, double-contrast cystography of, 296
gas bubbles in, 297
Blastomycosis, feline, 61
respiratory, 26, 28
Blood, collection of, from snakes, 1193
transfusion of, for feline hemobartonellosis, 86–87
Blood–brain barrier, modification of, in hepatic encephalopathy, bile acids in, 627
Board of Veterinary Medicine, and loss of license to practice, 1046–1047
Bone, nuclear imaging of, 384–385
Bone marrow abnormalities, in feline immunodeficiency virus infection, 179
Bone plate, for intra-articular distal femur fracture fixation, 882
Bone screw(s), for caudal cruciate ligament avulsion fracture repair, 826
for collateral ligament avulsion repair, positioning of, 848
Botulism, in veterinary practice, 1098–1099
Bovine herpesvirus-4, as feline uropathogen, 113–115
Brain, computed tomography of, interpretation of, 423–425
technical errors in, 419
magnetic resonance imaging of, 442, 446
neurosonography of, 374–375
probe positioning for, 370
nuclear imaging of, 381–383
space-occupying lesions of, cerebral angiography for, 339–340
Breach of cofidentiality, in veterinary law, 929
Breathing, open-mouthed, in feline respiratory disease, 18–19
Breemsstrahlung radiation, definition of, 471
Bronchoalveolar lavage, in feline respiratory disease diagnosis, 21
Brucellosis, in veterinary practice, 1092–1093
Bunnell suture pattern, for medial collateral ligament tear, in cat, 910
Business structure, and estate planning, 1137–1139
Butorphanol, for potbellied pigs, 1158
neurotoxicity of, 708
Butyrophenones, for exotic pet sedation, 1305
Buy-sell agreements, and estate planning, 1139–1140

Cachexia, feline, nutritional support in, 158
Cages, for snakes, 1188
Caging, of pet lizards, 1214–1215
Caimans, anesthesia for, 1322
Calcitonin, for metabolic bone disease, in pet lizards, 1237
Calcium, alimentary transport of, bile acids in, 627
supplementation with, for metabolic bone disease, in pet lizards, 1237
Calicivirus, feline, acute infection with, 24
as uropathogen, 111–112
respiratory, 26
Calorie requirements, in total parenteral nutrition, for cats, 166–167
*Campylobacter* infection, feline, 58
Campylobacteriosis, in veterinary practice, 1099–1100
Candidiasis, and feline gingivitis-stomatitis-pharyngitis, 151
Canine parvovirus, **555–568**
clinical presentation of, 559
diagnosis of, 559–560
epidemiology of, 556–557
genomic analysis of, 555–556
immunity to, 558
management of, 560–563
in-hospital care, 561–563
outpatient supportive therapy, 560–561
pathogenesis of, 557–559
prevention of, 563–566
vaccination against, timing of, 563–565
Cannulated screws, for intra-articular distal femur fracture fixation, 880–881
*Capillaria*, feline respiratory infection with, 27, 30
Carbapenem, for neonatal sepsis in kittens, 96
Carbenoxolone, for ulcer therapy, 505

Carbohydrate, dietary, restriction of, with exocrine pancreatic insufficiency, 603
Carcinoma, squamous cell, and feline gingivitis-stomatitis-pharyngitis, 150
Cardiac imaging, 386–391
Cardiac shunt, analysis of, 390
calculation of, 388
Cardiomegaly, in feline dirofilariasis, 132
Cardiomyopathy, feline dirofilariasis vs, 132
Carnivora, anesthesia for, 1317–1319
Castration, in potbellied pigs, 1159–1160
Cat(s), anesthesia for, 1317–1318
congenital portosystemic shunt in, **609–623**. See also *Portosystemic shunts.*
energy requirements of, calculation of, 163
inflammatory bowel disease in, **569–586**. See also *Inflammatory bowel disease, feline.*
megacolon in, **587–594**. See also *Megacolon.*
stifle joint in, disease of, **897–913**. See also under *Stifle joint.*
Cat scratch disease, feline, 57–58, 64
Catheter insertion, in percutaneous endoscopic gastrostomy tube placement, 536
Cathode, definition of, 471
Cauda equina, definition of, 471
myelography of, compression in, 324
normal, 314
Celiotomy, in pet lizards, 1234–1235
in tortoises/turtles, 1260
Cell-mediated immune response, in feline infectious peritonitis, 4–6
to feline leukemia virus, 196–198
Central nervous system, magnetic resonance imaging of, 448–459
cerebral hemorrhage, 452–455
intracranial neoplasia, 453–459
ischemic infarction, 449–452
structural abnormalities, 448–449
pathologic changes in, in feline immunodeficiency virus, 182–183
ultrasonographic examination of, 349–375
Cephalosporins, dosage schedule for, 97
for neonatal sepsis in kittens, 97–98
Cerclage wire, for patellar fracture repair, 889
Cerebral angiography, 339–340
three-dimensional, 468
Cerebral hemorrhage, magnetic resonance imaging of, 452–455
Cerebral infarction, magnetic resonance imaging of, 450–451
Cerebrovascular malformation, three-dimensional angiogram of, 468
Cervical spine, intervertebral disk protrusion in, computed tomography of, 428
myelography of, extradural lesion, 318
normal, canine, 315
feline, 316
Cesarean section, in potbellied pigs, 1161
Cestodes, zoonoses caused by, in veterinary practice, 1104–1105
Characteristic radiation, definition of, 471
Chediak-Higashi syndrome, and feline gingivitis-stomatitis-pharyngitis complex, 144
Chelonia, families and species of, 1252. See also *Tortoises/turtles.*
Chemotherapeutics, in snakes, 1207–1209
Cheyletiella infestation, feline, 63
Chicks, in lizard diet, 1222
Child labor, Fair Labor Standards Act and, 968
Chlamydia, infection with, feline, 61
respiratory, 26
in snakes, 1198
zoonoses caused by, in veterinary practice, 1089–1090
Chlorpromazine, for canine parvovirus, 562
Cholecystectomy, enterohepatic circulation of bile acids after, 638
Cholehepatic circuit, of bile acid circulation, 633
Cholestasis, bile acid profiles in, 639, 646
Cholesterol, synthesis and elimination of, bile acids in, 627
Chondroplasty, for patellar luxation, 862
Choroid plexus papilloma, magnetic resonance imaging of, 457
Chrysotherapy, for feline plasmacytic-lymphocytic gingivitis-stomatitis-pharyngitis, 146
Cimetidine, dosages for small animals, 507
for adverse hepatic drug reactions, 668
for exocrine pancreatic insufficiency, 604
for ulcer therapy, 499–500
uses of, 500
Circulatory system, of snakes, 1184
Circumcostal gastropexy, for gastric dilatation volvulus, 523–524
necropsy findings in, 528
Cirrhosis, bile acid profiles in, 639, 646
CITES, 1061–1063
administration and exemptions of, 1062
appendices of, 1062
current issues involving, 1062–1063
Civil rights, statutory protection of, in employment, 957–962
Client(s), duty to inform, liability involving, 1031
duty to protect, liability involving, 1029–1030

Client(s) *(Continued)*
expectations of, increased, and veterinary lawsuits, 1020
fee collection from, 951–953
injury to, veterinarian's liability in, 1031
malicious prosecution for malpractice, 1045
Clindamycin, for feline gingivitis-stomatitis-pharyngitis complex, 142
Clinical specimens, US postal shipment of, regulations concerning, 1081–1083
*Clostridium perfringens* infection, in veterinary practice, 1100
Clotting, abnormalities of, with epidural anesthesia, 712
Coagulation abnormalities, with shunt occlusion, for congenital portosystemic shunt, 620
Cobalamin, assay of, for small intestinal disease, in chronic malabsorption, 601
supplements of, for exocrine pancreatic insufficiency, 604
Coccidia, fecal, in cats, characteristics of, 46
Coccidioidomycosis, respiratory, feline, 26, 28
Coccidiosis, feline, 42–52
Colectomy, subtotal, anastomosis in, 591
enteric function following, 593
for megacolon in cats, 589–591
operative complications in, 591–592
postoperative nutrition with, 592–593
vessel ligation and intestinal transection in, 590
Collateral ligament(s), 692, **845–853**
anatomy and function of, 845–846
flexion/extension of, laxity in, 899
injury to, 846–849
diagnosis of, 846–847
in cat, management of, 909–910
prognosis in, 849
treatment of, 847–849
lateral, injury to, in fibular head transposition, 758
rupture of, cranial cruciate ligament rupture vs, 801
Colohepatic circuit, of bile acid circulation, 633
Colostrum feeding, of newborn potbellied pigs, 1167
Communal housing/handling, of pet lizards, 1222–1223
Communication, failure of, and malpractice, 1037
Companion animals, anticruelty laws involving, 1114–1115
Compounding bag, for total parenteral nutrition, for cats, 165–166
Compression radiographs, for excretory urography, 284
Compton scattering, 239–240
definition of, 471
Computed tomography, artifacts and misinterpretation pitfalls in, 409–413
back projection process in, 405
beam detection in, 404
computer system for, 406
consoles for, 407
contrast agents for, 275–276
definition of, 399–401
image construction in, 400
image interpretation in, 421–434
image quality in, 417–421
image storage in, 409
interpretation of, **417–435**
principles and concepts of, **399–415**
process of, 401–409
data collection, 401–403
data processing, 403–404
image display, 404–408
scanners for, classification of, 409
components of, 401
gantry of, 403
third-generation, 402
third- and fourth-generation units for, 410
window widths and levels in, 408
Condylar screw system, dynamic, for intra-articular distal femur fracture fixation, 882–883
Congenital defects, of snakes, 1204
Conjunctivitis, chronic, in feline immunodeficiency virus infection, 179
Consent forms, in malpractice claim, 1040–1041
in veterinarian–client relationship, 950
Consideration, in contract, 948–949
Constipation, following subtotal colectomy, 593
in snakes, 1205–1206
Contract, considerations of, in veterinary practice, **945–956**
definition of, 946
formation of, 946–949
interpretation and enforcement of, 949
principles of, basic, 945–949
stages in, 947–949
Contrast, 243
definition of, 471
long-scale, 245
short-scale, 244
Contrast agents, for computed tomography, 422
for diagnostic imaging, **269–279**
historical review of, 269–271
mode of excretion of, 271–272
structure of, 270–271
for myelography, 308–309
dose of, 311, 313

injection of, 311–313
Contrast studies, of genital system, 302–304
Convention on the International Trade in Endangered Species of Wild Fauna and Flora, 1061–1063. See also *CITES*.
Conversion, in veterinary law, 929
Coronaviruses, and feline infectious peritonitis, 2–3
feline enteric, 3, 11–14. See also *Feline enteric coronavirus*.
in cats, **1–16**
strains of, 2
transmission of, 3
Corticosteroids, for eosinophilic granuloma complex, 149
for feline dirofilariasis, 137
for feline hemobartonellosis, 86–87
for feline infectious peritonitis, 9–10
for feline inflammatory bowel disease, 580
for feline plasmacytic-lymphocytic gingivitis-stomatitis-pharyngitis, 146, 147
County zoning ordinances, in veterinary practice, 978–979
Covenant not to compete, between veterinary practices, 953–955
Cowpox, feline, 58
Cranial cruciate ligament, rupture of, **717–733**. See also under *Cruciate ligament(s)*.
Cranial drawer movement, excessive, following fibular head transposition, 759
Cranial drawer test, for cranial cruciate ligament rupture, 723–724, 780–781
for meniscal injury, 835–836
in stifle joint wire suture stabilization, 748
postoperative, with tibial plateau leveling osteotomy, 789
Cranial sarcoma, computed tomography of, 426
Cranium, radiography of, 263
Crickets, in lizard diet, 1220
Crocodiles, anesthesia for, 1322
Cruciate ligament(s), 692
avulsion fractures of, 804–806
caudal, anatomy of, applied, 821–822
injury to, **821–829**
bone avulsions, surgical repair of, 827
clinical presentation and diagnosis of, 823–825
mechanisms of, 823
treatment of, 825–826
extracapsular stabilization, 826
laxity of, with cranial cruciate ligament rupture, 780
midsubstance tears of, surgical repair of, 827
rupture of, cranial cruciate ligament rupture vs, 801
effects of, 793
cranial, insufficiency of, 797–798
rupture of, **717–733**
bilateral, 807–808
biomechanics of, 778–786
active model of stifle, 781–784
traditional model of stifle, 778–781
complicated, 804–810
decision-making in, **797–819**
degenerative joint disease with, 812
diagnosis of, 721–730

pathogenesis of, 4–6
treatment of, 9–10
vaccination against, 10–11
Feline leukemia virus, **193–211**
and feline gingivitis-stomatitis-pharyngitis complex, 142–143
exposure to, 194
immunity to, factors affecting, 198
infection with, immune response to, 196–199
pathogenesis of, 193–196
pathways of, 195
prevention of, general recommendations, 208–209
replication of, 197
subgroups of, 198–199
vaccination against, 199–205
guidelines for, 208–209
vaccines against, commercially available, 201–205
comparison studies of, 206–107
licensing requirements for, 201–202
development of, 199–201
early history, 199
genetically engineered products, 200–201
subunit products, 199–200
whole virus products, 200
Feline medicine, genetic engineering technology in, applications of, **213–226**
Feline oncoronavirus cell membrane-associated antigen, to feline leukemia virus, 198
Feline viral rhinotracheitis, and feline gingivitis-stomatitis-pharyngitis, 151
Femoral osteotomy, for patellar luxation, 865
Femoral pores, of male iguana, 1227
Femorotibial ligament, severence of, increased stifle joint motion in, 847
Femur, distal, intra-articular fractures of, 877–884
classification of, 877–879
clinical signs and diagnosis of, 879
postoperative care in, 884
treatment of, 879–884
external fixation, 882
interfragmentary compression, 880–881
internal fixation, 879–880
with comminution, 881
Fenbendazole, for gastrointestinal parasites, 672–675
action of, 674
Fentanyl, analgesia with, onset and duration of, 706
Ferrets, anesthesia for, 1318–1319
diagnostic imaging of, 1290–1294
lymphosarcoma in, 1293
mast cell tumor in, 1292
normal thoracic radiograph of, 1291
Fetus, ultrasonographic appearance of, 365
Fevaxyn FeLV (Solvay Animal Health), for feline leukemia virus vaccination, 205
Fibrosarcoma, and feline gingivitis-stomatitis-pharyngitis, 150
Fibula, fracture of, in fibular head transposition, 759
freeing of, in fibular head transposition, 756
proximal, osteochondroma of, cranial cruciate ligament rupture with, 805
Fibular head transposition, **755–760**
for patellar luxation, 865
postoperative complications of, 759
technical complications of, 758–759
technique of, 755–758
Fields of view, in computed tomography, 421
Film densities, production of, 249
Film processing, for radiographs, 242
Filtration, 241
definition of, 472
Financial planner, certified, role in estate planning, 1123

Fish, in lizard diet, 1222
Flagellate infections, in snakes, 1200
Flank-biting, in potbellied pigs, 1152
Fluid therapy, for canine parvovirus, 561
in pet lizards, 1230
in tortoises/turtles, 1260–1261
Fluoroscopy, 248–252
conventional, principles of, **235–252**
definition of, 472
image-intensified, 249–250
Focal spot, definition of, 472
effective, in x-ray production, 238
Folate assay, for small intestinal disease, in chronic malabsorption, 601
Fomite diseases, feline, 67–74
Food, Drug and Cosmetic Act, amendment of, 1002–1003
Food and Drug Administration. See *FDA*.
Food and drugs, regulatory issues in, **991–1005**
Food animals, anticruelty laws involving, 1115–1116
Food poisoning, in veterinary practice, *Bacillus cereus*, 1098
staphylococcal, 1101–1102
Force plate analysis, with meniscectomy, for cranial cruciate ligament rupture, 815
Forceps, use of, in cranial cruciate ligament repair, 767–770
Foreign bodies, and feline gingivitis-stomatitis-pharyngitis, 151
gastric, gastrointestinal endoscopy for, 485
in amphibians, 1284–1285
ingestion of, in tortoises/turtles, 1264
Fractures, in pet lizards, 1238–1239
pathologic, 1236
Freer periosteal elevator, for feline stifle joint visualization, 900
Fungal agents, as feline uropathogens, 118
Fungal infections, feline, 66–67
in amphibians, 1281–1283
in snakes, 1198
Fungi, zoonoses caused by, in veterinary practice, 1102–1103
*Fusobacterium* species, and feline gingivitis-stomatitis-pharyngitis complex, 142

Gadolinium-DTPA, as contrast agent, for magnetic resonance imaging, 276
Gallbladder, interdigestive contraction of, and serum bile acid tolerance test, 634–635
ultrasonographic appearance of, 357
abnormal, 352
Gas bubble disease, of amphibians, 1285
Gastrectomy, for gastric dilatation volvulus, 517
Gastric atony, chronic syndrome of, 527–528
Gastric dilatation volvulus, controversial techniques in, 518–519
early exploration and gastropexy in, rationale for, 515–516
intraoperative appearance of, 514
mechanics of rotation in, 513–515
surgical prevention of, **513–530**
Gastric emptying, delayed, and serum bile acid tolerance test, 634
Gastric necrosis, with gastric dilatation volvulus, management of, 517
Gastric rupture, with gastric dilatation volvulus, intraoperative appearance of, 517
Gastric wall, viability of, in gastric dilatation volvulus, 516–518
Gastrocnemius mucle, origin of, avulsion of, cranial cruciate ligament rupture vs, 799
Gastroduodenostomy, for acquired antral pyloric hypertrophy, 550, 552
Gastroesophageal ulcers, generation of, bile acids in, 627
Gastrointestinal disease, in tortoises/turtles, 1263–1264
Gastrointestinal endoscopy, **481–495**
current status of, 487
diagnostic capabilities of, 491–493
early findings in, 484
endoscope selection for, 487–490
future of, 493–494
historical perspectives on, 481–487
indications for, 490–491
limitations of, 492
suite for, 488
techniques of, development of, 483–485
therapy with, development of, 494
video, development of, 493
Gastrointestinal parasites, of small animals, treatment of, developments in, **671–681**
future, 678–679
Gastrointestinal signs, with congenital portosystemic shunt, 611
Gastrointestinal tract, ultrasonographic appearance of, 361
abnormal, 352
normal, 350
Gastropexy, for gastric dilatation volvulus, 515–516
belt-loop, 524–526
circumcostal, 523–524

Gastropexy *(Continued)*
postoperative management of, 526
techniques of, 519–527
tube gastrostomy for, 520–521
Gastrostomy, feedings with, composition of, 540
for enteral nutrition, in cats, 160, 162
percutaneous endoscopic, **531–545**
anatomic considerations in, 534
anesthetic considerations in, 534–535
complications of, 542–543
indications for, 535
introduction of, 533–534
tube placement in, 535–541
verification of, 540
tube removal in, 541
tube, historical perspective on, 533
Gavials, anesthesia for, 1322
Gelpi retractors, for feline stifle joint visualization, 900
Genetic engineering technology, in feline medicine, applications of, **213–226**
GenetiVac FeLV (Pitman-Moore/Coopers Animal Health), for feline leukemia virus vaccination, 204
Geniculate artery, caudal, laceration of, in fibular head transposition, 759
Genital system, contrast studies of, 302–304
Gerbils, anesthesia for, 1321
diagnostic imaging of, 1289–1290
Giardiasis, feline, 37–41, 63
diagnosis of, 38–40
epidemiology and control of, 40–41
epizootiology of, 38
etiology of, 37–38
microscopic findings in, 38–40
pathogenesis and clinical signs of, 38
treatment of, 40
Gifts, in estate planning, 1126–1127
Gingivitis, feline, **139–153**
juvenile-onset, 140, 148
Gingivitis-stomatitis-pharyngitis, plasmacytic-lymphocytic, 145–148
Gingivitis-stomatitis-pharyngitis complex, feline, 141
Glomerular filtration rate, renal imaging for, 393, 395
Glomerulonephritis, ultrasonographic appearance of, 354
Glucocorticoids, hepatic reactions to, 660
hepatopathy caused by, bile acid values in, 646
Goiter, fibrous, in tortoises/turtles, 1266
Gold salts, for feline plasmacytic-lymphocytic gingivitis-stomatitis-pharyngitis, 146, 147
Gout, in tortoises/turtles, 1266
Granulomas, in pet lizards, 1241–1242
Grid(s), definition of, 472
x-ray, 240
Griseofulvin, hepatic reactions to, 660
Grower rations, for potbellied pigs, 1169
Guinea pigs, anesthesia for, 1321
diagnostic imaging of, 1290–1294

$H_2$-receptor antagonists, for exocrine pancreatic insufficiency, 604
for ulcer therapy, 499–500
new, 502
Halothane, for exotic pet anesthesia, 1309–1310
for potbellied pigs, 1159
hepatic reactions to, 660
*Hammondia*, feline infection with, 49–50
Hamsters, anesthesia for, 1321
diagnostic imaging of, 1289–1290
Hazard communication, 1076–1080
coordinator of, duties of, 1079
employee training in, 1079
employer responsibility in, 1079
regulations regarding, 1076–1077
standards of, violation of, penalty for, 1079
Hazardous chemicals, identification of, 1077
Hazardous materials, containers for, labeling of, 1078
Head, computed tomography of, interpretation of, 423–427
Heart, nuclear imaging of, 386–391
ultrasonographic appearance of, abnormal, 353
normal, 351
Heartworm disease, feline, **125–138**. See also *Dirofilariasis*.
Heat, environmental, for pet lizards, 1216–1217
Heel effect, definition of, 472
in x-ray production, 238–239
Heineke-Mikulicz pyloroplasty, for acquired antral pyloric hypertrophy, 550
Helminthic infestations, feline, 62
Hemangiosarcoma, metastatic, radionuclide imaging of, 384
Hematologic abnormalities, in feline immunodeficiency virus infection, 179
Hematologic studies, for feline dirofilariasis, 130
Hematology, of pet lizards, 1227–1229
of tortoises/turtles, 1256–1257
Hematopoietic growth factors, in feline medicine, genetic engineering technology in, 222–223
Hemobartonellosis, feline, **79–90**
causative agent in, 80

clinical features of, 82–86
forms of, 84–85
laboratory findings in, 84–86
modes of transmission of, 81–82
necropsy findings in, 87
pathogenesis of, 80–81
prevalence and risk factors in, 82
prevention of, 88
prognosis in, 87–88
treatment of, 86–87
Hemopoietic system, of snakes, 1185–1186
Hemorrhagic diathesis, in feline inflammatory bowel disease, 584–585
Hepatic disorders, effect on serum bile acid concentrations, 636–639
Hepatic encephalopathy, with congenital portosystemic shunt, 611
Hepatic imaging, 391–393
Hepatic injury, with toxic drug metabolites, mechanisms of, 662
Hepatic lipoprotein receptors, regulation of, bile acids in, 627
Hepatic necrosis, bile acid values in, 646
Hepatitis, chronic, bile acid values in, 646
Hepatobiliary membrane, injury to, perpetuation of, bile acids in, 627
Hepatobiliary scintigraphy, 392–394
Hepatotoxicity, with pharmacologic agents, in dogs and cats, **659–670**
agents causing, 660
historical perspective on, 659–660
mechanisms of injury in, 660–662
Hernia, inguinal, in potbellied pigs, 1160
Herpesviruses, feline, as uropathogens, 112–115
respiratory, 26
Hibernation, of snakes, 1189
Hiring, negligent, employer liability in, 962–963
Histoplasmosis, respiratory, feline, 25, 26, 28
Hohnmann retractor, for feline stifle joint visualization, 900
Hookworm, in snakes, 1201
Hormonal abnormalities, and infertility, in potbellied pigs, 1165
Horses, anticruelty laws involving, 1115–1116
Host–parasite relationships, in feline lower urinary tract disease, 102–103
Hounsfield scale, 406
definition of, 415, 472
Human disease potential, in potbellied pigs, 1175–1176
Human drugs, distribution/dispensing to veterinarians, 996–997
use in food-producing animals, 996
use in non-food-producing animals, 996
use in veterinary medicine, 995–997
discretionary enforcement against veterinarians, 995–997
illegality of, 995
Human injury, claims for, and veterinary lawsuits, 1021–1022
Humidity, environmental, for snakes, 1189
for pet lizards, 1218
Humoral immune response, to feline leukemia virus, 196–198
Hybridization assays, in feline medicine, genetic engineering technology in, 215–217
Hydatidosis, in veterinary practice, 1104
Hydraencephaly, magnetic resonance imaging of, 448
Hydration, following subtotal colectomy, 592
Hydrocephalus, neurosonography of, 372, 374–375
Hydrogen breath test, in chronic malabsorption, 602
Hydronephrosis, excretory urogram of, 291
ultrasonographic appearance of, 355
Hydroureter, excretory urogram of, 291
Hyperadrenocorticism, cranial cruciate ligament rupture in, 809–810
Hyperalimentation, in tortoises/turtles, 1264
Hypercalcemia, in green iguanas, 1239–1240
Hyperglobulinemia, in feline plasmacytic-lymphocytic gingivitis-stomatitis-pharyngitis, 145
Hypermetabolism, percutaneous endoscopic gastrostomy for, 531
Hypersensitivities, and feline plasmacytic-lymphocytic gingivitis-stomatitis-pharyngitis, 145
Hyperthermia, with shunt occlusion, for congenital portosystemic shunt, 620
Hyperthyroidism, feline inflammatory bowel disease vs, 575–576
Hyperuricemia, in tortoises/turtles, 1266
Hypoalbuminemia, with congenital portosystemic shunt, 612
Hypoglycemia, in newborn potbellied pigs, 1169
with congenital portosystemic shunt, 612, 620
Hypoiodinism, in tortoises/turtles, 1266
Hypophagia, in tortoises/turtles, 1263
Hypothermia, in newborn potbellied pigs, 1167
with shunt occlusion, for congenital portosystemic shunt, 620
Hypothyroidism, and feline gingivitis-stomatitis-pharyngitis complex, 144
Hypoventilation, with opioid analgesics, 708–709

Iguana(s), abscess in, 1242
celiotomy of, 1234–1235
diet for, 1221
egg retention/dystocia in, 1244–1246
hypercalcemia/metastatic mineralization syndrome in, 1239–1240
medical care of, **1213–1249**
metabolic bone disease in, 1235–1237
normal blood values for, 1228
thermal burn of, 1217
vascular calcification in, radiograph of, 1298
venipuncture sites for, 1228–1229
Ileal-hepatic circuit, of bile acid circulation, 633
Ileum, disease or resection of, serum bile acid tolerance test in, 634
Image contrast, in magnetic resonance imaging, 441
Image display, in computed tomography, 404–408
Image intensifier system, with fluoroscopy, 251
Image orientation, in magnetic resonance imaging, 441–443
Image storage, in computed tomography, 409
Imaging techniques, advanced, new and future, **461–469**
Imipenem-cilastatin, spectrum of activity of, 96
Immune diseases, and feline gingivitis-stomatitis-pharyngitis, 148–149
Immunity, effect of malnutrition on, in cats, 156–158
in kittens, 91–92
to feline leukemia virus, factors affecting, 198
Immunofluorescent antibody test, for feline dirofilariasis, 128
Immunoinsufficiencies, and feline gingivitis-stomatitis-pharyngitis complex, 144–146
Immunologic abnormalities, in feline immunodeficiency virus, 183
Immunology, of amphibians, 1273
of snakes, 1185–1186
Immunomodulators, in feline medicine, genetic engineering technology in, 222
Immunosuppression, bile acids in, 627
In situ hybridization assay, in feline medicine, genetic engineering technology in, 215–217
Incisional gastropexy, for gastric dilatation volvulus, 521–523
Infections, peristomal, with percutaneous endoscopic gastrostomy, 543
Infectious disease(s), in cats, nutritional management in, **155–171**
in pet lizards, 1241–1244
Infectious waste, definition of, 1073
disposal of, 1074
Inflammation, suppurative, in feline lower urinary tract disease, 104
Inflammatory bowel disease, feline, **569–586**
classification of, 571
definition of, 571
diagnosis of, 575–578
features of, 579
historical perspectives on, 569–571
history and clinical signs in, 573–575
mucosal appearance in, 577
pathogenesis of, 571–573
pathologic findings in, interpretation of, 578–580
patient profile in, 573
treatment of, 580–583
unusual complications of, 584–585
Informed consent, in malpractice liability, 928
Injection, incorrectly located, as malpractice, 1039
Innovar-Vet, for potbellied pigs, 1157
Insect(s), in lizard diet, 1220
Insectivora, anesthesia for, 1319
Insurance, for malpractice, 1046
insufficient, risk of, and veterinary lawsuits, 1022–1023
Insurance representative, role in estate planning, 1123
Integument, of snakes, 1182
examination of, 1191
Intensifying screen, 241–242
definition of, 472
Interferon-alpha, for feline immunodeficiency virus, 185
Internal Revenue Code Section 2032A, and estate planning, 1139–1140
Intervertebral disk, computed tomography of, protruded, 428
myelography of, extruded, 318–319
herniated, 319
Intestacy, laws governing, 1132–1133
Intestinal disease, effect on serum bile acid concentrations, 636–638
Intestinal endoscopy, for feline inflammatory bowel disease, 576–577
Intestinal mucosa, biopsy of, gastrointestinal endoscopy for, 492
disease of, gastrointestinal endoscopy for, 491
Intestinal tract, feline protozoa infections of, **37–55**
pathologic changes in, in feline immunodeficiency virus, 182
Intestinal transit, and serum bile acid tolerance test, 634

Intoxications, food-borne, in veterinary practice, 1098–1102
Intracranial neoplasia, magnetic resonance imaging of, 453–459
Intrahepatic cholestasis, hepatobiliary scintigraphy of, 394
Invasion of privacy, employee legal action involving, 963–964
Investors, unhappy, and veterinary lawsuits, 1021
Iodixanol, as contrast agent, 271
Iohexol, as contrast agent, 270
  for myelography, 308–309
Iopamidol, as contrast agent, 270
  for myelography, 308–309
Iothalamate, as contrast agent, 270
  for excretory urogram, 284
Iotrolan, as contrast agent, 271
Ioxaglate, as contrast agent, 271
Iron, alimentary transport of, bile acids in, 627
Isoflurane, for exotic pets, 1310
  for pet lizards, 1233
  for tortoises/turtles, 1259
*Isospora*, feline infection with, 42–45
    etiology of, 42
    life cyle of, 42–43
    oocysts in, 45–46
    pathogenicity of, 43–44
    stages of, 44
    treatment of, 45
Ivermectin, for gastrointestinal parasites, 675–676

Jejunohepatic circuit, of bile acid circulation, 633
Joint capsulectomy-imbrication, for patellar luxation, 861
Judgment error, malpractice vs, 1037–1038
Judicial system, backlog in, veterinary lawsuits and, 1022

Ketamine, for pet lizards, 1233
  for potbellied pigs, 1158
  for tortoises/turtles, 1259
Ketoconazole, hepatic reactions to, 660
Kidney(s), dystrophic calcification of, 286
  neoplasm of, excretory urogram of, 291
  nuclear imaging of, 393–397
  size of, with portosystemic shunt, 338
  ultrasonographic appearance of, 354–355
    abnormal, 352
    normal, 350
Kilovolts peak, definition of, 472
  equivalent, 246–247
Kirschner wire, for intra-articular distal femur fracture fixation, 880
  for patellar fracture repair, 889
Kittens, energy requirements for growth in, 163
  neonatal sepsis in, **91–100**

Laboratory animal veterinarians, anticruelty laws involving, 1116
Lactic dehydrogenase, inactivation of, for bile acid determination, 643
Lactulose, for congenital portosystemic shunt, 616
Lacunar infarct, magnetic resonance imaging of, 452
Lag screws, for intra-articular distal femur fracture fixation, 880
Lagomorpha, anesthesia for, 1319–1320
Lameness, in baby potbellied pigs, 1171–1172
Land use, control laws for, in veterinary practice, 976–979
    issues in, 977–978
  planning of, nuisance law vs, 984
Large colon, ultrasonographic appearance of, 361
Larmor frequency, definition of, 472
  in magnetic resonance imaging, 439
Larval migrans, feline, 62, 67–68
Lateral suture technique, for cranial cruciate ligament rupture, **735–753**
Law, connection with ethics, 925–932
    general overview, 929–932
  insufficiency of, 932–933
  relation to ethical values, 927
  veterinary, examples from, 927–929
Lawyer, choosing of, **937–944**
    checking office of, 939
    checking pedigree of, 941
    client expectations in, 943
    early, 938
    ethics commission verification of, 940
    fee information from, 941–943
    information gathering for, 938–939
    lawyer referral services for, 940
    legal training of, 937–938
    personality of firm, 940
  firing of, 943–944
  role in estate planning, 1122
Legal obligations, assistance in acting ethically, 931–932
Leptomeningitis, definition of, 472
Leptospirosis, and infertility, in potbellied pigs, 1166
  feline, 59
  in veterinary practice, 1093–1094

Leukocell 2 (SmithKline Beecham Animal Health), for feline leukemia virus vaccination, 204–205
Leukocytosis, in feline infectious peritonitis, 7
Liability, malpractice and, **1027–1052**
License to practice, loss of, malpractice and, 1046–1047
Life insurance, in estate planning, 1125–1126
Ligaments, changes in, with cranial cruciate ligament rupture, 717
Lighting, for pet lizards, 1218–1219
  for snakes, 1188
Limbs, computed tomography of, interpretation of, 429–432
Linear attenuation coefficient, definition of, 415, 472
Linear probe, definition of, 472
Lipids, digestion and absorption of, role of bile salts in, 635–636
  in total parenteral nutrition, for cats, 165
Liquid waste, spills of, management of, 1075
Listeriosis, feline, 59
  in veterinary practice, 1094
Litigation, increased willingness toward, 1020
Liver, atrophy of, with portosystemic shunt occlusion, 619
  biopsy of, for congenital portosystemic shunt, 614, 617
  disease of, bile acid profiles in, 638–639
  dysfunction of, with congenital portosystemic shunt, 611
  hypoplasia of, with congenital portosystemic shunt, 610
  neoplasia of, bile acid values in, 646
  nuclear imaging of, 391–393
  passive congestion of, bile acid values in, 646
  size of, with portosystemic shunt, 338
  ultrasonographic appearance of, 356–357
    abnormal, 352
    normal, 350
Living wills, in estate planning, 1130
Lizards, pet, anesthesia for, 1233–1235, 1322–1323
    antibiotics for, 1232
    clinical evaluation and therapeutics of, 1227–1235
      hematology, 1227–1229
      microbiology, 1229
      parasitology, 1230
    clinical syndromes in, 1235–1248
      aggression toward humans, 1246–1247
      egg retention/dystocia, 1244–1246
      fractures, 1238–1239
      hypercalcemia/metastatic mineralization syndrome, 1239–1240
      infectious diseases, 1241–1244
      metabolic bone disease, 1235–1237
      muscle fasciculations, 1240–1241
      pedal disorders, 1247–1248
      tail injuries and amputations, 1239
      urinary system diseases, 1247
    diagnostic imaging in, 1297
    diet of, 1219–1222
      carnivores, 1222
      herbivores, 1219–1220
      insectivores, 1220–1222
    euthanasia of, 1235
    husbandry of, 1214–1223
      caging, 1214–1215
      client questions concerning, 1215
      communal housing/handling, 1222–1223
      diet, 1219–1222
      heat, 1216–1217
      lighting, 1218–1219
      longevity, 1223
      quarantine, 1223
      substrate, 1215–1216
      visual security, 1219
      water and humidity, 1218
    medical care of, **1213–1249**
    necropsy of, 1235
    physical examination of, 1223–1227
    sex determination of, 1226–1227
    skin preparation for surgery, 1234
    surgery in, 1233–1235
    therapeutics in, 1230–1233
    venipuncture sites for, 1228–1229
Locality rule, and veterinary lawsuits, 1022
Longevity, of pet lizards, 1223
Lordosis, definition of, 472
Lower urinary tract disease, feline, bacterial, factors predisposing to, 109
    causes of, 102
    clinical manifestations of, 103–108
    consequences of, 102–108
    future directions in, 119–120
    host defense mechanisms in, 104
    uropathogens in, **101–123**
Lumbar spine, myelography of, intramedullary lesion, 321
    myelomalacia, 321
    normal, 314
  nerve root entrapment in, computed tomography of, 429
  three-dimensional images of, 467
Lumbosacral junction, epidurography of, 326–327
Lung washes, from snakes, 1193
Lungs, nuclear imaging of, 385–386
Lupus erythematosus, systemic, and feline gingivitis-stomatitis-pharyngitis, 148

Lyme disease, feline, 59
in veterinary practice, 1095
Lymphadenopathy, persistent generalized, in feline immunodeficiency virus infection, 178
Lymphocytes, abnormalities of, in feline immunodeficiency virus, 183–184
response to Con A, 12
response to feline infectious peritonitis vaccination, 11
Lymphoid tissue, pathologic changes in, in feline immunodeficiency virus, 182–183
Lymphomas, in feline immunodeficiency virus infection, 180
Lymphosarcoma, in feline inflammatory bowel disease, 584
intestinal, features of, 579

M mode, definition of, 472
Macrocyclic lactones, for gastrointestinal parasites, 675–677
Magnetic resonance, definition of, 472
Magnetic resonance imaging, **437–459**
advanced techniques in, 461–464
spectroscopy, 462–465
three-dimensional, 461–462
vascular, 462
concepts of, 437–441
contrast agents for, 276–277
examination by, 441–445
data acquisition in, 444
image orientation in, 441–443
patient preparation in, 444–445
image acquisition in, 437–441
image characteristics and principles of interpretation in, 446–448
indications for, 445–446
system components of, 438
Malabsorption, small intestinal, and serum bile acid tolerance test, 634
suspected, investigation of, 597
with exocrine pancreatic insufficiency, 603
Malnutrition, and feline gingivitis-stomatitis-pharyngitis complex, 144
effect on immunity, in cats, 156–158
percutaneous endoscopic gastrostomy for, 531
Malpractice, and liability, 928–929, **1027–1052**
abandonment in, 928–929
informed consent in, 928
and loss of license to practice, 1046–1047
avoidance of, steps in, 1048–1049
cases of, 1038–1040
concerns in, 1041
damages in, 1043–1045
monetary loss, 1045
sentimental value and emotional distress, 1043–1045
defense to, 1042–1046
definition of, 1034
failure to communicate and, 1037
judgment error vs, 1037–1038
product liability and, 1047–1048
Malpractice suits, as avoidance of bill paying, 1021
Mammals, exotic, anesthesia and analgesia for, preanesthetic monitoring and support for, 1313
small, diagnostic imaging of, 1289–1290
Marine Mammal Protection Act, current issues involving, 1064
permitting process under, 1064
provisions of, 1063–1065
summary of, 1064–1065
Mastication, difficulty with, in feline respiratory disease, 18
Material data safety sheets, contents of, 1077
for hazardous materials, 1076
Mebendazole, for gastrointestinal parasites, 672–675
action of, 673
hepatic reactions to, 660
Medial patella, luxation of, with cranial cruciate ligament rupture, 808–809
Medical devices, US postal shipment of, regulations concerning, 1081–1083
Medical waste, definition of, 1073
state laws regarding, enforcement of, 1074
Medical Waste Tracking Act, 1071–1072
Megacolon, in cats, **587–594**
diagnosis of, 588–589
subtotal colectomy for, 589–591. See also *Colectomy, subtotal.*
Megestrol acetate, for feline plasmacytic-lymphocytic gingivitis-stomatitis-pharyngitis, 147
hepatic reactions to, 660
Melarsamine, for feline dirofilariasis, 137
Meningioma, magnetic resonance imaging of, 458–459
Meniscectomy, in cranial cruciate ligament rupture, 812–815
biomechanical effects of, 813–814
force plate analysis in, 815
instantaneous center of rotation with, 814–815
partial, 838
total vs, 837
total, 838–840
Meniscus, 692–693, **831–843**
anatomy of, 831–832

Meniscus *(Continued)*
cranial drawer position of, dorsal view of, 836
dorsal in situ view of, 835
function of, 832
in cranial cruciate ligament stabilization, 739–740
injury to, 832–834
clinical findings in, 834
diagnosis of, 834–837
surgical procedures for, 837–840
suturing of, 841
types of, 833
with cranial cruciate ligament rupture, 791
medial, tears of, dorsal view of, 837
pathophysiology of, 833
regeneration of, 840–841
Meperidine, analgesia with, onset and duration of, 706
Metabolic bone disease, in pet lizards, 1235–1237
in tortoises/turtles, 1265
Metabolic disorders, of snakes, 1202–1203
of tortoises/turtles, 1265–1267
Methotrexate, hepatic reactions to, 660
Methoxyflurane, for exotic pet anesthesia, 1309
hepatic reactions to, 660
Methylprednisolone acetate, for feline inflammatory bowel disease, 581
Metoclopramide, for canine parvovirus, 562
Metrizamide, as contrast agent, 270
for myelography, 308–309
Metrizoate, as contrast agent, 270
Metronidazole, for feline dental disease, 141–142
for feline giardiasis, 40
for feline inflammatory bowel disease, 580–582
for ulcer therapy, 508
Mibolerone, hepatic reactions to, 660
Mice, anesthesia for, 1321
diagnostic imaging of, 1289–1290
Microbiology, of pet lizards, 1229
Milbemycin, for gastrointestinal parasites, 676–677
Milk replacements, for newborn potbellied pigs, 1169
Milliamperage, definition of, 472
Mineralization syndrome, metastatic, in green iguanas, 1239–1240
Miniature Schnauzer, acquired hepatic disease in, frequency of, 664
Minimum wage, Fair Labor Standards Act and, 967
Minor children, estate planning for, 1137
Misoprostol, dosages for small animals, 507
for ulcer therapy, 504–505
Mites, in pet lizards, 1230
in snakes, 1201–1202
Moral values, professional, 925–926
Morphine, analgesia with, onset and duration of, 706
epidural, delayed respiratory depression with, 708
nausea and vomiting with, 711
pruritus with, 711
urinary retention with, 710–711
neurotoxicity of, 708
Motility modifiers, for canine parvovirus, 562
Mouthrot, in pet lizards, 1242–1243
Multiple-cat household, respiratory disease prevention in, 31–33
Multiple myeloma, cranial cruciate ligament rupture in, 805
Municipal zoning restrictions on operations, in veterinary practice, 978
Muscle fasciculations, in pet lizards, 1240–1241
Muscle transpositions, for patellar luxation, 865
Musculoskeletal weakness, feline, nutritional support in, 158
Mushroom catheter, preparation of, in percutaneous endoscopic gastrostomy tube placement, 538
Mustelids, anesthesia for, 1318–1319
Mycoplasmas, as feline uropathogens, 117–118
Myelography, 307–322
abnormal, neurologic disorders causing, 322
air bubbles in, 313
contraindications to, 308
contrast agents for, 274, 308–309
definition of, 472
indications for, 307–308
interpretation of, 314–322
of spinal cord, 262
patient care following, 322
patterns in, 317–318
technique of, 309–314
Myelomalacia, of lumbar spine, myelography of, 321
Myocarditis, with canine parvovirus, 557

Naloxone hydrochloride, for respiratory depression with opioids, 709
for urinary retention with opioids, 710
Nasal adenocarcinoma, computed tomography of, 426
Nasal area, computed tomography of, interpretation of, 424–427

radiography of, 264–266
Nasal discharge, in feline respiratory disease, 18
Nasoesophageal tube, enteral nutrition through, for cats, 160–161
Nasopharyngeal polyps, and feline gingivitis-stomatitis-pharyngitis, 150
Nausea, with opioid analgesics, 711
Necropsy, indications for, 1040
Negligence, assumption of risk in, 1042–1043
comparative vs contributory, 1042–1043
concept of, 1027–1033
damages in, 1043–1045
monetary loss, 1045
sentimental value and emotional distress, 1043–1045
defense to, 1042–1046
drugs and, 1033
gross, and loss of license to practice, 1046
Nematodes, zoonoses caused by, in veterinary practice, 1105–1106
Nematodiasis, in snakes, 1201
Neonatal sepsis, in kittens, **91–100**
antimicrobial agents for, 95–99
causes of, 92–93
clinical findings in, 93
laboratory findings and diagnosis in, 93
management of, 93–95
outcome of, factors in, 92
Neoplasia, and feline gingivitis-stomatitis-pharyngitis, 150–151
cranial cruciate ligament rupture vs, 803–804
in amphibians, 1284
in feline immunodeficiency virus infection, 180
in snakes, 1203
Nephrogram, definition of, 472
Nephrogram phase, of excretory urogram, 285–287
Nephrographic opacification pattern, of excretory urogram, 287, 290
Neurologic dysfunction, in feline immunodeficiency virus infection, 180
Neurosonography, 349–375
indications for, 370–373
normal, 372
technique of, 349, 370
Neurotransmitters, in pain modulation, 704
Nitrous oxide, for exotic pet anesthesia, 1310
Nizatidine, for ulcer therapy, 502
Nondomestic anmials, intermediate-sized, diagnostic imaging of, 1290–1294
Nonhealing wounds, in cat, nutritional support in, 158
Nonionic, definition of, 472
Non-probate estate, 1131
Northern blotting, in feline medicine, genetic engineering technology in, 218–219
Nuclear imaging, **379–398**
for feline dirofilariasis, 131
uses of, 396
Nucleic acid probes, in feline medicine, 214
Nuisance, attractive, liability for, 988
definition of, 981
public vs private, 983
Nuisance disputes, and veterinary clinics, 984–989
court-ordered remedies in, 983
factors in resolving, 982–983
Nuisance law, and veterinary practice, 981–989
keys to understanding, 981–983
land use planning vs, 984
Nutating, definition of, 472
Nutrients, delivery of, gastrointestinal route for, 532–533
Nutrition, in amphibians, 1275
Nutritional disorders, in amphibians, 1284–1285
in snakes, 1202
in tortoises/turtles, 1265–1267
Nutritional management, of cats with infectious disease, **155–171**
enteral vs parenteral, 159
implementation of, 159–168
indications and patient selection for, 158–159
Nutritional status, and adverse hepatic drug reactions, 661

Obstipation, in snakes, 1205–1206
Occupational Safety and Health Administration. See *OSHA*.
Ocular discharge, in feline respiratory disease, 18
Odontoclastic tooth resorption, in cats, 140
Offer, of contract, 947
Olympus GIF-P endoscope, 482
flexible tip of, 483
Omeprazole, dosages for small animals, 507
for ulcer therapy, 502–504
Ophidian paramyxovirus, of snakes, 1194–1196
Opiate receptors, in spinal cord, 704
Opioids, analgesia with, actions of, 705
onset and duration of, 706
epidural, advantages and efficacy of, 706–707
clinical experience in small animals, 712–713

Opioids *(Continued)*
injection technique for, 713
neurotoxicity of, 707–708
pharmacokinetics and pharmacodynamics of, 705–706
side effects and contraindications of, 708–712
Oral cavity, of snake, examination of, 1191–1192
pathologic changes in, in feline immunodeficiency virus, 182
Oral intake, enhancement of, in cats, 159
Organic anions, interactions between, 640
Ornithosis, in veterinary practice, 1089–1090
Orthopedic wire, placement of, in fibular head transposition, 758
Orthopedic wire suture, for caudal cruciate ligament avulsion fracture repair, 826
for stifle joint stabilization, **735–753**
breakage of, 750–752
migration of, 752
placement of, 739, 742–744
device for, 741
radiographs of, 750–752
removal of, 749
OSHA, and employment practices, 961–962
general information regarding, 1080–1081
reference documents for, 1080
regulations of, violations of, categories and penalties for, 1081
Osmolality, definition of, 472
Osteochondrosis, cranial cruciate ligament rupture vs, 802
of shoulder, computed tomography of, 430
Osteomyelitis, of rabbit, 1288
Osteophytes, periarticular, with cranial cruciate ligament rupture, 720
Ovarectomy, in pet lizards, 1245
Ovariohysterectomy, in potbellied pigs, 1160
Ovary, ultrasonographic appearance of, 366
abnormal, 353
normal, 350

Packed cell volume, fluctuations in, in feline hemobartonellosis, 84
Pain, anesthesia for, site and mechanism of action of, 704–705
pathways of, 703–704
Pair production, of x-rays, 240
Pancreas, ultrasonographic appearance of, 360
abnormal, 352
normal, 350
Pancreatic enzymes, assay of, for exocrine pancreatic insufficiency, 598
Pancreatic extract, replacement therapy with, for exocrine pancreatic insufficiency, 604
Pancreatic insufficiency, exocrine, **595–608**
diagnosis of, 596–602
baseline investigations in, 597–598
pathology and clinical signs of, 595–596
pathophysiologic consequences of, 602–604
specific investigations for, 598–601
treatment of, 604–605
Panepinto sling, for potbellied pigs, 1153
Pannus formation, with cranial cruciate ligament rupture, 720
*Paragonimus*, respiratory infection with, feline, 27, 30
Parasitemia, in feline hemobartonellosis, 82–83
Parasites, feline, 67–69
as uropathogens, 119
gastrointestinal, of small animals, treatment of, **671–681**
in baby potbellied pigs, 1173–1174
in pet lizards, 1230–1231
of amphibians, 1282–1284
Parasiticides, for amphibians, 1284
for snakes, 1199, 1209
Parasitology, of pet lizards, 1230
of tortoises/turtles, 1256
Parasympatholytics, for exotic pet sedation, 1304
Parenteral nutrition, total, for cats, 164–168. See also *Total parenteral nutrition.*
Partial volume effect, definition of, 415, 472
Partnership, and estate planning, 1138
Parvovirus, canine, **555–568**. See also *Canine parvovirus.*
Patella, canine, anatomy of, 855–856
extensor mechanism of, alignment following tibial crest transposition, 864
fractures of, 887–890
classification of, 887
clinical signs and diagnosis of, 888
complications and prognosis in, 889–890
postoperative care of, 889
treatment of, 888–889
luxation of, **855–868**
clinical signs of, 857–858
diagnosis of, 858
grades of, 858
pathophysiology of, 856–857
postoperative management of, 865–866
prognosis in, 866

therapy for, 859–865
algorithm for, 860
femoral osteotomy, 865
fibular head transposition, 865
joint capsulectomy-imbrication, 861
ligamentous support techniques, 865
muscle transpositions, 865
surgical approach, 860–861
tibial crest transposition, 863–864
tibial osteotomy, 865
trochlear modification, 861–863
medial, luxation of, trochlear wedge recession for, **869–875**. See also under *Trochlea*.
stabilization of, trochlear recession for, 870
wedge osteotomy of, for cranial cruciate ligament repair, 763
feline, fractures of, fissure, immobilization of, 907
fragmented, removal of, 907
surgical procedures for, 904–905
transverse, fixation of, 906
luxation of, surgical procedure for, 903–904
Patellar fascia, incision of, in cranial cruciate ligament repair, 765–766
Patellar ligament, disruption of, cranial cruciate ligament rupture vs, 800–801
Patellar tendon, canine, incision of, in cranial cruciate ligament repair, 765
feline, transverse tear of, stabilization of, 908
Pathology, clinical, in amphibians, 1276
Patient positioning, in computed tomography, and image quality, 417–418
with radiography, 247–248
Patient preparation, in magnetic resonance imaging, 444–445
Pedal disorders, in pet lizards, 1247–1248
Pemphigus vulgaris, and feline gingivitis-stomatitis-pharyngitis, 148
Penicillins, for neonatal sepsis in kittens, 95
Penile prolapse, in tortoises, 1265
Pentastomiasis, in snakes, 1201
Pentobarbital, for sedation with myelography, 309
Percutaneous endoscopic gastrostomy, **531–545**. See also *Gastrostomy*.
Periodontitis, feline, 140
Periorbital area, computed tomography of, interpretation of, 424–427
Peritonitis, feline infectious, 3–11. See also *Feline infectious peritonitis*.
with subtotal colectomy, 592
Peroneal nerve, injury to, in fibular head transposition, 758
Personal injury liability, of veterinarians, 987–988
Pesticides, in veterinary workplace, 1083
Pet, cremation of, veterinarian's liability in, 1032–1033
Pet cemetary, as public nuisance, 986–987
Pet stores, regulations governing, 1069
Pharmaceuticals, extralabel use of, regulations governing, 1069
veterinary, compounding of, 997–998
Pharmacologic agents, hepatotoxicity with, in dogs and cats, **659–670**
Pharyngitis, feline, **139–153**
Pharyngoscopy, in respiratory disease diagnosis, 21
Pharyngostomy, for enteral nutrition, in cats, 161
Phenobarbital, hepatic injury by, 665–666
hepatic reactions to, 660
Phenothiazines, for exotic pet sedation, 1305
Phenytoin, hepatic reactions to, 660
Phosphonoformate, for feline immunodeficiency virus, 185
Photodisintegration, of x-rays, 240
Photoelectric effect, 239
definition of, 472
Photoperiods, for pet lizards, 1217
Piezoelectric crystals, in ultrasonography, 345
Pin fixation, for intra-articular distal femur fracture fixation, 880
Pin migration, following fibular head transposition, 759
Pirenzepine, for ulcer therapy, 505
Pituitary masses, magnetic resonance imaging of, 456, 458
Pixel, definition of, 415, 472
Plague, feline, 59, 64–65
in veterinary practice, 1095–1096
Planar osteotomies, in trochlear wedge recession, for medial patellar luxation, 871–873
Plant ingestion, and feline gingivitis-stomatitis-pharyngitis, 151
Plaque, and bacterial toxins, 140
Plastron flap, removal of, in tortoises/turtles, 1260
Platelet function, abnormal, bile acids in, 627
Pleural effusion, in feline infectious peritonitis, 6
PMEA, for feline immunodeficiency virus, 185
Pneumonia, in baby potbellied pigs, 1173
interstitial, with *Capillaria aerophila* infection, 31
with percutaneous endoscopic gastrostomy, 543

Pneumoperitoneum, with percutaneous endoscopic gastrostomy, 543
Polymerase chain reaction, in diagnosis of feline viral uropathogens, 116
in feline medicine, genetic engineering technology in, 219–220
Polyphagia, in exocrine pancreatic insufficiency, 596
Popliteus muscle, avulsion of, cranial cruciate ligament rupture vs, 799
Porcine viruses, and infertility, in potbellied pigs, 1165–1166
Portal circulation, normal, 332
Portal hypertension, induced, with shunt occlusion, for congenital portosystemic shunt, 620
with portosystemic shunt, 336
Portal scintigraphy, 393
Portal venography, 331–339
contrast agents for, 274–275
Portal venous system, angiographic procedures for, 334
anomalies of, 335–339
normal anatomy of, 331–333
radiology of, 333–335
Portoazygous shunt, intraoperative mesenteric portogram of, 337
Portocaval shunt, intraoperative mesenteric portogram of, 337
Portography, in congenital portosystemic shunt, 614
Portosystemic shunt(s), 335
congenital, **609–623**
animals affected by, 611
clinical signs of, 611–612
definition of, 609–610
diagnosis of, 613–614
fate of animal with, 610–611
future management of, 621
isolation of, 617
laboratory alterations in, 612–613
prognosis in, 614–616
treatment for, 616–619
intraoperative mesenteric portogram of, 338
Portosystemic vascular anomaly, bile acid values in, 646
Positron emission tomography, advanced techniques in, 464–466
Potbellied pigs, **1149–1177**
anesthesia for, 1157–1159, 1317
baby, diarrhea in, 1170
lameness in, 1171–1172
parasites in, 1173–1174
pneumonia in, 1173
rhinitis in, 1172–1173
skin conditions in, 1172
behavior of, 1150–1152
abnormal, 1151–1152
breed standards for, 1149–1150
breeding and pregnancy in, 1162–1163
disease conditions in, 1169–1174
dystocia in, 1163–1164
examination of, 1153–1155
farrowing in, 1163–1164
prostaglandin for, 1164
feeding and nutrition in, 1168–1169
gestation in, 1163
hand-rearing of, 1168
hematology of, 1156
human disease potential in, 1175–1176
infertility in, infectious, 1165–1166
noninfectious, 1164–1165
neonatal care in, 1166–1168
ovulation in, 1162
physical restraint and examination of, 1153–1155
physiologic data for, normal, 1154
preanesthetics for, 1157
puberty in, 1161–1162
regulatory medicine of, 1155–1156
reproduction in, 1161–1166
serum biochemistry of, 1156
socialization of, 1151
suckling behavior in, 1168
surgical procedures in, 1159–1161
vaccination protocol in, 1174–1175
venipuncture of, 1155
Powers of attorney, in estate planning, 1129–1130
Praziquantel, for gastrointestinal parasites, 672–675, 677–678
Prednisone, for feline inflammatory bowel disease, 580–582
oral, for feline plasmacytic-lymphocytic gingivitis-stomatitis-pharyngitis, 146
Prescription diet, for gastrostomy feedings, 541
Primates, anesthesia for, 1320
Primidone, hepatic reactions to, 660
Probate court, functions and costs of, 1130–1131
Prochlorperazine, for canine parvovirus, 563
Product liability, 1047–1048
Professional corporation, and estate planning, 1138–1139
Professional limited liability companies, and estate planning, 1138–1139
Property issues, in veterinary practice, **975–989**
Property ownership, in estate planning, 1123–1126
Propofol, for exotic pet anesthesia, 1308
Prostaglandin analogues, for ulcer therapy, 504–505
Prostate, transitional cell carcinoma of, cystogram/urethrogram of, 303

ultrasonographic appearance of, 362–363
abnormal, 352
normal, 350
Protective equipment, for employees, OSHA requirements for, 1080
Protein(s), requirements for, in total parenteral nutrition, for cats, 166–167
restriction of, for congenital portosystemic shunt, 616
therapeutic, in feline medicine, genetic engineering technology in, 222–223
Proton pump inhibitor, for ulcer therapy, 502–504
Protozoa, intestinal tract infections with, feline, **37–55**, 68–69
zoonoses caused by, in veterinary practice, 1103–1104
Pruritus, with opioid analgesics, 711
Pseudorabies virus, and infertility, in potbellied pigs, 1166
Psittacosis, in veterinary practice, 1089–1090
Pulmonary angiography, for feline dirofilariasis, 130
Pulmonary arteries, digital subtraction angiogram of, in feline dirofilariasis, 135
normal, 134
enlarged, in feline dirofilariasis, 132–133
Pulmonary imaging, 385–386
Pyelogram, definition of, 472
Pyelogram phase, of excretory urogram, 287–292
Pyelonephritis, chronic, excretory urogram of, 292
ultrasonographic appearance of, 355
Pylorectomy, for acquired antral pyloric hypertrophy, 552
Pyloric hypertrophy, antral, acquired, in dog, **547–554**
histopathology of, 552–553
historical perspective on, 547
physical examination and laboratory data in, 548
radiographic and endoscopic examination in, 548–549
signalment amd history in, 548
surgery for, 549–552
Pyloric surgery, with gastric dilatation volvulus, 519
Pyoderma, in pet lizards, 1241
Pyrexia, with percutaneous endoscopic gastrostomy, 543
Pyuria, in feline lower urinary tract disease, 104

Q fever, feline, 70
in veterinary practice, 1090
Quarantine, of pet lizards, 1223
of snakes, 1186–1187
Quinacrine, for feline giardiasis, 40
Quinolones, for neonatal sepsis in kittens, 98

Rabbits, anesthesia for, 1319–1320
diagnostic imaging of, 1290–1294
enteritis in, 1294
osteomyelitis of, 1288
pneumonia in, 1292
Rabid animal, preservation of, veterinarian's liability in, 1032
Rabies, feline, 58
in potbellied pigs, 1175
in veterinary practice, 1088–1089
Radiation safety, with fluoroscopy, 250–252
with radiography, 247–248
Radiation therapy, for feline plasmacytic-lymphocytic gingivitis-stomatitis-pharyngitis, 147–148
Radiocolloid imaging, of liver, 391–392
Radiograph, negligent reading of, veterinarian's liability in, 1032
Radiographic image, with x-rays, 242–247
Radiography, conventional, principles of, **235–252**
in respiratory disease, 19–20
of skull, 262–268
thoracic, for feline dirofilariasis, 130
Radioimmunoassay, for bile acid determination, 641–642
Radiology, of amphibians, 1277
of tortoises/turtles, 1257–1258
Ranitidine, dosages for small animals, 507
for exocrine pancreatic insufficiency, 604
for ulcer therapy, 502
Rats, anesthesia for, 1321
diagnostic imaging of, 1289–1290
Real estate, in estate planning, 1123–1124
Recombinant DNA technology, in feline medicine, genetic engineering in, 220–223
Reflection, definition of, 472
Reflex transmission imaging, in ultrasonography, 345
Refraction, definition of, 472
Regions of interest, in computed tomography, 422
Regurgitation, in snakes, 1204–1205
Release forms, in malpractice claim, 1040–1041
Renal calculus, excretory urogram of, 292
Renal disease, algorithm for, bilateral, 289
unilateral, 288

Renal disease *(Continued)*
in feline immunodeficiency virus infection, 180
Renal failure, contrast-induced, 273
Renal imaging, 393–397
Renal neoplasia, ultrasonographic appearance of, 355
Renal plasma flow, renal imaging for, 395
Repetition time, 440
definition of, 472
Reproduction, disorders of, in tortoises/turtles, 1264–1265
in amphibians, 1274–1275
in snakes, 1184–1185
Reptiles, anesthesia for, 1321–1325
preanesthetic monitoring and support for, 1313
diagnostic imaging in, 1294–1298
ancillary techniques, 1298
normal interpretation and diagnostic technique, 1295–1296
Research techniques, in feline medicine, genetic engineering technology in, 217–220
Resonance, definition of, 473
Resource Conservation and Recovery Act, for solid waste disposal, 1075
Respiratory depression, delayed, with opioid analgesics, 708–709
Respiratory disease, bacterial, in snakes, 1197
feline, bacterial, 22–23, 67–74
infectious, prevention of, 31–33
mycotic, 25–29
parasitic, 30–31
patient evaluation in, 18–22
diagnostic studies, 19–20
invasive, 21–22
presenting signs, 18–19
protozoal, 29–30
role of infectious agents in, **17–35**
viral, 23–25
in tortoises/turtles, 1261–1263
Respiratory system, of snakes, 1183
Restraining animals, duty to, liability involving, 1028–1029
Restriction fragment length polymorphism, in feline medicine, genetic engineering technology in, 217–218
Retinal detachment, ultrasonographic appearance of, 368
Retro-like virus, of Boid snakes, 1196
Reverberation, definition of, 473
Rhinitis, chronic, in feline immunodeficiency virus infection, 179
in baby potbellied pigs, 1172–1173
Rickettsia, infection with, feline, 61
zoonoses caused by, in veterinary practice, 1090–1091
Ring artifact, with computed tomography, 412–413
Risk, assumption of, in negligence, 1042–1043
Robert Jones bandage, for avulsion fractures of tibial tuberosity, 886
Rocky Mountain spotted fever, in veterinary practice, 1090–1091
Rodents, anesthesia for, 1321
in lizard diet, 1222
Rotation, instantaneous center of, with meniscectomy, for cranial cruciate ligament rupture, 814–815
Rush screws, for intra-articular distal femur fracture fixation, 882

Safety, in veterinary workplace, **1071–1084**
Salmonellosis, feline, 60
in pet lizards, 1243
in snakes, 1197
in veterinary practice, 1100–1101
*Sarcocystis*, feline infection with, 51–52
Sarcoptic mange, feline, 63
Scan time, in computed tomography, and image quality, 418
Scatter radiation, control of, 240
Scattering, of x-rays, 239
Scintigraphy, **379–398**. See also *Nuclear imaging*.
Scratch diseases, feline, 57–67
Sector probe, definition of, 473
Seizures, with shunt occlusion, for congenital portosystemic shunt, 620
Self inspection, for workplace safety, checklist for, 1082
Senn retractors, for feline stifle joint visualization, 900
Sepsis, and cranial cruciate ligament rupture, 718
epidural anesthesia during, 712
neonatal, in kittens, **91–100**. See also *Neonatal sepsis*.
Serologic testing, for feline dirofilariasis, 127, 134–135
Seroma, subcutaneous, following fibular head transposition, 759
Serum bile acid concentrations, in congenital portosystemic shunt, 613
Serum chemistry, of tortoises/turtles, 1256–1257
Sharps, disposal of, 1072
US postal shipment of, regulations concerning, 1081–1083
Shell, diseases of, in tortoises/turtles, 1267–1268
Shigellosis, feline, 60

Shunt ligation, for congenital portosystemic shunt, 615
Shunt occlusion, for congenital portosystemic shunt, 616
complications of, 619–621
monitoring effects of, 618–619
Signal void, in magnetic resonance imaging, 447
Sinus area, computed tomography of, interpretation of, 424–427
Skin conditions, in baby potbellied pigs, 1172
Skull, CT image through, 411
radiography of, in feline respiratory disease, 19–20
positioning for, **253–268**
Skunks, anesthesia for, 1319
Slice thickness, in computed tomography, and image quality, 418
Small intestine, bacterial overgrowth of, in chronic malabsorption, 601
diffuse wall thickening of, in eosinophilic enteritis, 572
disease of, investigation of, in chronic malabsorption, 601–602
Snakes, **1179–1212**
anesthesia for, 1323–1324
biopsy of, 1193–1194
chemotherapeutics in, 1207–1209
classification and zoogeography of, 1179–1181
clinical problems of, 1204–1207
constipation/obstipation, 1205–1206
dystocia, 1206–1207
eye infections, 1206
regurgitation/anorexia, 1204–1205
collection of biomedical samples from, 1193
diagnostic imaging in, 1297–1298
digestive system of, 1182–1183
families of, 1180–1181
food for, 1189–1190
husbandry and maintenance of, 1186–1190
cages, 1188
food, 1189–1190
hibernation, 1189
humidity and air flow, 1189
light, 1188
quarantine, 1186–1187
temperature, 1188–1189
water, 1189
immune system of, 1185–1186
infectious diseases in, 1194–1202
bacteria, 1196–1198
fungal, 1198
viruses, 1194–1196
musculoskeletal system of, 1181–1182
noninfectious diseases of, 1202–1204
congenital defects, 1204
metabolic and toxicologic, 1202–1203
neoplasia, 1203
nutritional, 1202
trauma, 1203–1204
parasites in, 1198–1202
acariasis, 1201–1202
amebiasis, 1198–1199
cryptosporidiosis, 1199–1200
flagellate infections, 1200
nematodiasis, 1201
pentastomiasis, 1201
trematodiasis, 1200
physical examination of, 1190–1192
structure and function of, 1181–1186
circulatory system, 1184
digestive system, 1182–1183
hemopoietic system, 1185–1186
immune system, 1185–1186
integumentary system, 1182
musculoskeletal system, 1181–1182
reproductive system, 1184–1185
respiratory system, 1183
urinary system, 1184
Sneezing, in feline respiratory disease, 18
Soft tissue calcification, in tortoises/turtles, 1265
Sole proprietorship, and estate planning, 1137–1138
Solid waste, spills of, management of, 1076
Southern blotting, in feline medicine, genetic engineering technology in, 218–219
Spaying, in potbellied pigs, 1159–1160
Spin, definition of, 473
Spin echo, definition of, 473
Spin echo pulse sequence, in magnetic resonance imaging, 440
Spinal cord, neurosonography of, 373, 375
Spinal intumescence, definition of, 473
Spinal tap, for myelography, 310–311
Spine, computed tomography of, interpretation of, 427–429
radiographic positioning for, **253–268**
cervical, 253–255
lumbar, 257–259
sacrum, 260–262
thoracic, 255–257
thoracolumbar junction, 259–260
Spleen, ultrasonographic appearance of, 358–359
abnormal, 352
neoplasia, 359
normal, 350
torsion, 358
Splenectomy, with gastric dilatation volvulus, 518
Splenic torsion, with gastric dilatation volvulus, intraoperative appearance of, 518

Sporotrichosis, feline, 61, 67
Staphylococcal food posioning, in veterinary practice, 1101–1102
*Staphylodora* infestation, in snakes, 1200
Starter rations, for newborn potbellied pigs, 1169
Steatorrhea, and serum bile acid tolerance test, 634
in feline inflammatory bowel disease, 574
Steinmann pin, placement of, in fibular head transposition, 757
Stifle joint, in cat, **897–913**
complete luxation of, management of, 910–912
craniolateral view of, 898
injury to, surgery for, approaches to, 902–903
incisions for, 901–903
preoperative preparation for, 901
procedures in, 903–912
instrumentation of, 900
surgical anatomy of, 897–900
surgical exposure of, 901
visualization of, Hohnmann retractor positioning for, 900
in dog, **691–701**
anatomy of, 691–694
arthrodesis of, 890–894
indications for, 890
postoperative care in, 893–894
surgical technique in, 890–893
approach to, 891
external fixation, 893
Kirschner wire use, 891–892
ostectomies, 891
plate fixation, 892
wire/screw fixation, 893
blood supply to, 693
capsule of, closing of, in cranial cruciate ligament stabilization, 741
thickening of, with cranial cruciate ligament rupture, 720
cranial view of, 822
following caudal cruciate ligament transection, 824
in chronic caudal cruciate injury, 824
degenerative disease of, arthrodesis for, 890
progression of, 812
with cranial cruciate ligament rupture, 718–719
fracture of, arthrodesis for, 890
cranial cruciate ligament rupture vs, 802–803
hyperextension of, 793
immobilization of, following meniscectomy, 813
instability of, in collateral ligament injury, 846
intra-articular fractures of, and arthrodesis, **877–895**
lateral dissection of, 693
lateral parapatellar approach to, 764
ligamentous stabilization of, 779
limited extension of, with cranial cruciate ligament rupture, 780
luxation of, **845–853**
arthrodesis for, 852, 890
cranial cruciate ligament rupture vs, 801
diagnosis of, 850
prognosis in, 853
treatment of, 850–853
arthrodesis, 852, 890
primary reconstruction, 851
transarticular pinning, 851–852
motion of, control of, four-bar linkage for, 779
increased, with femorotibial ligament severence, 847
moments of force in, 783, 786
neoplasia involving, cranial cruciate ligament rupture vs, 803–804
palpation of, in collateral ligament injury, 846
periarticular fibrosis of, stabilization by, 736
stabilization of, orthopedic wire suture for, **735–753**
case histories of, 749–752
intraoperative appearance of, 747
postoperative care in, 746–749
surgical procedure for, 737–746
periarticular fibrosis in, 736
surgical approaches to, 694–700
lateral, 694–699
fascia lata reflection for, 695
intra-articular exposure for, 696
joint capsule incision for, 696
skin incision for, 694
vastus lateralis elevation for, 695
medial, 697–700
arthrotomy incisions in, 698
intra-articular exposure for, 698
joint capsule incision for, 697
skin incision for, 697
tibial tuberosity osteotomy, 699, 700
synovial cell sarcoma of, cranial cruciate ligament rupture vs, 804
tibial plateau leveling osteotomy of, 788–790
Stomach, ultrasonographic appearance of, 361
Stomach acid, suppression of, in ulcer therapy, 506–507
Stomatitis, feline, **139–153**
ulceromembranous, 148
infectious, in pet lizards, 1242–1243

ulcerative, in snakes, 1196
vesicular, in veterinary practice, 1087–1088
Streptococcal infection, feline, 60
Stress, and feline gingivitis-stomatitis-pharyngitis complex, 144
Subarachnoid space, definition of, 473
Substrates, for pet lizards, 1215–1216
Succinylcholine chloride, for sedation of tortoises/turtles, 1259
Sucralfate, dosages for small animals, 507
for ulcer therapy, 501
Sufentanyl, analgesia with, onset and duration of, 706
Sulfasalazine, for feline inflammatory bowel disease, 583
Sulfobromophthalein retention testing, for congenital portosystemic shunt, 613
Sulfonamides, potentiated, for neonatal sepsis in kittens, 98
Suture placement, in percutaneous endoscopic gastrostomy tube placement, 537
Syncytia-forming virus, as feline uropathogen, 112
Synovial cell sarcoma, of stifle joint, cranial cruciate ligament rupture vs, 804
Synovial fluid analysis, for cranial cruciate ligament rupture, 725–726
Synovitis, and cranial cruciate ligament rupture, 718, 720
Systemic disease, and feline gingivitis-stomatitis-pharyngitis complex, 144

T1, definition of, 473
T2, definition of, 473
Taeniasis, in veterinary practice, 1104–1105
Tail, injuries and amputations of, in pet lizards, 1239
regeneration of, in green iguana, 1225
Tail-biting, in potbellied pigs, 1151–1152
Target, definition of, 473
Targeting, in computed tomography, 421
Tax accountant, role in estate planning, 1123
Taxes, in estate planning, 1126–1127
Technetium compounds, for brain imaging, 381
for nuclear bone imaging, 384
for nuclear pulmonary imaging, 385
for thyroid imaging, 380
Technique chart, formulation of, with x-rays, 244–247
Telazol, for potbellied pigs, 1158
Temperature, environmental, for snakes, 1188–1189
Terrapins. See *Tortoises/turtles.*
Testicle, ultrasonographic appearance of, 364
abnormal, 353
normal, 350
Tetracyclines, for feline dental disease, 141
modified, for neonatal sepsis in kittens, 98
Thallium toxicosis, and feline gingivitis-stomatitis-pharyngitis, 151
Therapeutics, of pet lizards, 1230–1233
Thermal gradients, for pet lizards, 1216
Thiacetarsamide, for feline dirofilariasis, 136–137
hepatic reactions to, 660
Thoracolumbar spine, myelography of, extradural lesion, 319
intradural-extramedullary lesion, 320
normal, 316
Thorax, anatomy of, species variations in, 1291
computed tomography of, interpretation of, 432–433
in intermediate-sized nondomestic animals, abnormal, 1291
normal, 1290
in small mammals, abnormal, 1289
normal, 1289
Thyroid gland, nuclear imaging of, 380–382
ultrasonographic appearance of, abnormal, 353
normal, 351
Tibia, caudal cruciate ligament avulsion of, 825
compression mechanism of, in cranial cruciate ligament rupture, 718
cranial movement of, reduction of, 793
with cranial cruciate ligament rupture, 780, 782, 786
proximal, avulsion fractures of, 885–886
deformity of, with cranial cruciate ligament rupture, 809
intra-articular fractures of, 884–887
classification of, 884
postoperative care in, 887
repair of, 885
Tibial compression, creation of, 784
Tibial compression test, for cranial cruciate ligament rupture, 724–725, 781–782
with tibial plateau leveling osteotomy, 789
Tibial crest transposition, for patellar luxation, 863–864
Tibial osteotomy, for patellar luxation, 865
Tibial plateau, fractures of, 884–885
leveling osteotomy of, for cranial cruciate ligament rupture, 784–787
concerns with, 792–793
postoperative care in, 787–788
rigid internal fixation for, 787

Tibial tuberosity, avulsion fractures of, 886
hole in, for cranial cruciate ligament suture stabilization, 744–746
Ticarcillin-clavulanate, spectrum of activity of, 96
Ticks, in pet lizards, 1230
in snakes, 1201–1202
Tortoises/turtles, anesthesia for, 1322–1323
biology and medicine of, **1251–1270**
captive husbandry of, 1253–1254
clinical assessment of, 1254–1258
hematology and serum chemistry, 1256–1257
parasitologic examination, 1256
radiology, 1257–1258
diagnostic imaging in, 1296–1297
dietary recommendations for, 1255
medical management of, 1260–1261
restraint and anesthesia of, 1258–1259
surgical techniques in, 1260
systemic clinical conditions of, 1261–1268
diseases of shell and shell repair, 1267–1268
gastrointestinal tract disease, 1263–1264
metabolic/nutritional disorders, 1265–1267
reproductive disorders, 1264–1265
respiratory tract disease, 1261–1263
taxonomy and biology of, 1251–1253
therapeutic agents used in, 1262
venipuncture of, 1257–1258
Total parenteral nutrition, for cats, 164–168
catheter selection and placement in, 165
potential complications of, 168
prescription calculation for, 166–168
solutions for, 165
Toxic epidermal necrolysis, and feline gingivitis-stomatitis-pharyngitis, 149
Toxicologic diseases, of snakes, 1202–1203
Toxoplasmosis, feline, 63, 70–74
biology of, 70
clinical disease in cats, 71
clinical disease in humans, 71
diagnosis of, 71–73
respiratory, 27, 29–30
zoonosis in, 73–74
in feline inflammatory bowel disease, 585
in veterinary practice, 1103–1104
Tracheal aspiration, in feline respiratory disease diagnosis, 21
Transmission, definition of, 473
Trauma, of snakes, 1203–1204
Trematodiasis, in snakes, 1200
Triamcinolone, oral, for feline plasmacytic-lymphocytic gingivitis-stomatitis-pharyngitis, 146
Trichinosis, in veterinary practice, 1105–1106
Trichomoniasis, feline, 41, 63
Trimethoprim/sulfadiazine, hepatic injury by, 666–667
hepatic reactions to, 660
Trochlea, femoral, concavity of, with medial patellar luxation, 857
wedge recession of, for patellar luxation, 861–862
medial, **869–875**
intraoperative adjustments in, 873–875
Trochleoplasty, for patellar luxation, 862–863
Trusts, in estate planning, 1127–1129
Q-Tip, 1128–1129
types of, 1128
Trypsin-like immunoreactivity, assay of, for exocrine pancreatic insufficiency, 599–601
Tube gastrostomy, for gastric dilatation volvulus, necropsy findings in, 527
historical perspective on, 533
Tuberculosis, animal, in veterinary practice, 1096–1097
in snakes, 1197
Tularemia, feline, 60, 65–66
in veterinary practice, 1097–1098
Turtle, radiograph of, gravid, 1295
normal, 1295
Tusks, in potbellied pigs, 1161
Tympanic bullae, radiography of, 266–268

Ulcer therapy, **497–512**
controversies in, 505–508
$H_2$-receptor antagonists vs cimetidine, 506
in 1980s, 499–501
in 1990s, 501–505
in small animals, development of, 497–498
sucralfate/$H_2$-receptor antagonists combined, 506
traditional, 498–499
Ultrasonography, **345–377**
artifacts in, 347–349
Doppler, transcranial, 466–468
imaging planes in, 348
in intermediate-sized nondomestic animals, 1294
in small mammals, 1290
indications and applications of, 346–347
interpretation of, 347
of congenital portosystemic shunt, 614
of urogenital system, role of, 304
principles of, 345–346
Upper respiratory disease, chronic, in feline immunodeficiency virus infection, 179
viral, chronic carrier state of, 24–25

Ureaplasmas, as feline uropathogens, 117–118
Urethra, obstruction of, and feline lower urinary tract disease, 105
urethrography of, calculus, 299
hematoma, 301
neoplasia, 302
rupture, 302
transitional cell carcinoma, 303
Urethral plug, matrix-crystalline, in feline lower urinary tract disease, 106–107
Urethrography, 299–302
indications, contraindications, and potential complications of, 299
interpretation of, 300–302
procedures for, 299–300
Urinary bladder, cystography of, hernia, 293
neoplasia, 298
Urinary retention, with opioid analgesics, 710–711
Urinary system, components of, 281
cystography of, 292–299. See also *Cystography.*
diseases of, in pet lizards, 1247
excretory urography of, 281–292. See also *Excretory urogram.*
of snakes, 1184
urethrography of, 299–302. See also *Urethrography.*
Urinary tract, canine, male, normal anatomy of, 301
Urinary tract disease, lower, feline, uropathogens in, **101–123**. See also *Lower urinary tract disease.*
with congenital portosystemic shunt, 611
Urogenital system, contrast agents for, 272–273
contrast studies of, **281–306**
ultrasonography of, role of, 304
Urolithiasis, and feline lower urinary tract disease, 104–105
Uropathogens, in feline lower urinary tract disease, **101–123**. See also *Lower urinary tract disease.*
Ursodeoxycholic acid, as therapeutic agent, 651–652
Uterus, ultrasonographic appearance of, abnormal, 353
infection, 365
normal, 350
Uveitis, coronavirus-induced, treatment of, 10

Vaccination, faulty, as malpractice, 1039
protocol for, in potbellied pigs, 1174–1175
Vaccine(s), in feline medicine, genetic engineering technology in, development, 220–222
vaccinia virus expression vector, 221–222
viral protein subunit, 220–221
virulence gene-deleted virus, 221
VacSYN/FeLV (Synbiotics), for feline leukemia virus vaccination, 205
Vaginogram, normal, 304
Vasculitis, hypersensitivity, and feline gingivitis-stomatitis-pharyngitis, 149
Ventilatory response, decreased, with opioid analgesics, 708–709
Ventricles, enlargement of, criteria for, 371
Ventricular cyst, magnetic resonance imaging of, 449
Ventricular septal defect, first-pass radionuclide angiocardiography of, 389
Ventriculography, cardiac, radionuclide, 386–388
Ventriculomegaly, magnetic resonance imaging of, 450
Vertebral column, radiographic positioning for, 253–262
Vesicular stomatitis, in veterinary practice, 1087–1088
Veterinarian(s), accreditation of, pitfalls in, 1057–1059
requirements for, 1055–1057
education and licensure, 1056–1057
skills and knowledge, 1055–1056
accredited, APHIS and, **1053–1059**
interface between, 1053–1054
circumventing of regulations by, 1058
delegation of responsibility by, 1058
regulations governing, 1057–1058
role of, 1055
standards of conduct for, 1057
animal welfare/anticruelty laws and, **1109–1119**
court decisions involving, 1113–1114
causes of legal action against, 1007–1008
death of, malpractice claim surviving, 1040
duty to care of, 1034
estate planning for, **1121–1141**
standard of care by, 1036–1037
local/community, 1035–1036
professional, 1035
Veterinarian–client relationship, contractual aspects of, 949–951
consent forms, 950
termination of, 950–951
Veterinarian's oath, 923–924
Veterinary clinic/hospital, as workplace, safety in, **1071–1084**
excessive noise suit involving, 986

Veterinary clinic/hospital *(Continued)*
nuisance disputes involving, 984–989
nuisance injunction against, 985–986
treatment under zonings, 979–981
Veterinary kennel, nuisance dispute involving, 985
Veterinary law, **921–935**
Veterinary lawsuits, **1019–1026**
causes of, 1007–1008
defense strategies for, 1023–1025
defensive vs quality medicine, 1023–1024
improved veterinarian–client communications, 1024
keeping and maintaining accurate records, 1025
minimizing risk of human injury, 1025
obtaining informed consent, 1024
trends in, 1019–1023
Veterinary liens, for fee collection, 952
Veterinary medical waste, items included in, 1074
management of, 1071–1076
Veterinary pharmaceutical compounding, 997–998
Veterinary practice(s), contractual considerations in, **945–956**
covenant not to compete, 953–955
property issues in, **975–989**
valuation of, and estate planning, 1139–1140
waste generated by, 1072
zoning laws in, 976–979
zoonoses in, **1085–1107**
Veterinary profession, increased awareness of by plaintiffs' attorneys, 1020
Veterinary specialists, increasing number of, and veterinary lawsuits, 1022
Video endoscope, flexible tip for, 489
Videotaping, for malpractice defense, 1046
Vietnamese potbellied pigs, **1149–1177**. See also *Potbellied pigs*.
Viral infections, in amphibians, 1283
in snakes, 1194–1196
Viruses, and feline gingivitis-stomatitis-pharyngitis complex, 142–144
as feline uropathogens, 111–117
diagnosis of, 115–117
etiopathogenesis of, 111–115
treatment of, 116–117
zoonoses caused by, in veterinary practice, 1087–1089
Viscera, assessment of, in congenital portosystemic shunt occlusion, 618
Visual security, for pet lizards, 1219
Vitamin A deficiency/toxicity, in tortoises/turtles, 1265–1266
Vitreal mass, ultrasonographic appearance of, 369
Vomiting, in feline inflammatory bowel disease, 573–574
with opioid analgesics, 711
with percutaneous endoscopic gastrostomy, 542
Voxel, definition of, 415, 473

Water, for pet lizards, 1218
for snakes, 1189
Weight-bearing, forces in, with cranial cruciate ligament rupture, 782–783
Weight loss, in exocrine pancreatic insufficiency, 596
in feline inflammatory bowel disease, 574
Weitlander retractors, for feline stifle joint visualization, 900
Wildlife, law on, federal, 1063–1067
international, 1061–1063
regulations regarding, federal, 1067–1068
state, 1068–1069
rehabilitation centers for, regulations governing, 1069
Wildlife jurisprudence, **1061–1070**
Wills, in estate planning, 1131–1132
Window level, 422
definition of, 415, 473
